POLAROID DIGITAL IDENTIFICATION CARD SYSTEMS PROTECT AND SECURE YOUR CHILDCARE ENVIRONMENT

A Safe and Secure Environment

You take the security of those entrusted to your care seriously. Parents and guardians count on you to provide a quality, educational experience for young minds, as well as a safe and highly secure environment for their children. So what more can you do to add real value to the care you provide? Polaroid's Digital Photo ID Systems offer the ideal imaging solution, with sharp, edge-to-edge, color optimized identification cards, to ensure the safety of children within your organization.

Affordable Options that Fit Your Security Needs

Polaroid offers an array of cost-effective, identification card systems, which will provide a secure and protected environment for employees and children. Not only are Polaroid Digital ID products simple and easy-to-use, they can be customized and integrated with your existing database system and software. Whether you need one of our standard, fully functional, turnkey systems or require a customized solution, Polaroid has your answer for achieving optimal security measures.
